**TEQIP II Sponsored National Conference on Application of Mathematics in
Engineering and Sciences (AMES-2014), November 29-30, 2014**

Report Outcome of the AMES-2014

Objective: The main objective of **AMES-14** was intended to provide a common platform for researchers, scientists, engineers and practitioners to present and discuss their latest research findings, ideas, developments of recent applications of mathematics in engineering and sciences. The participants was certainly be benefited from this conference.

Activity: The programme consists of plenary talks, invited lectures by eminent speakers in the field of mathematics and its applications and research paper presentation in the field of Applications of Mathematics in Engineering and Sciences from all over India. Department of Mathematics, MNNIT Allahabad organized a two days National Conference on Application of Mathematics in Engineering and Sciences (AMES-2014), November 29-30, 2014 at MNNIT Allahabad,. During the inaugural function of this conference Chief Guest was Prof. P. Chakrabarti, Director, MNNIT, Allahabad and presided the inaugural function of the conference. Dr. Pitam Singh , Convenor welcomed the participants and briefed about the programme. Dr. S.N.Pandey, Head , Department of Mathematics and chairman of the conference delivered welcome talk and emphasis the application of mathematics in Engineering and Sciences. Dr. P. Chakrabarti, Director, MNNIT, Allahabad delivered presidential address.

Report: 67 Research papers were presented in the research area of Applications of Mathematics in Engineering and sciences. The objective of the conference fulfilled and ends with fruitful outcomes.

Future Action: This type of common conference may be organized future also with some emphasis on real world problem as applications of Mathematics. This may also be useful to come together engineering and sciences.
